Full Speed ahead

Accelerate Enterprise Critical Initiatives through value co-creation, Gen AI, and Industry expertise

Zelle Implementation for Digital Bank Platform

We have invested $4.2M upfront to co-develop and implement Zelle capability, bringing our strong EWS partnership and experience in other similar implementations, combined with our knowledge of your ecosystem, to help accelerate this program in close collaboration with AMEX colleagues.

$4.2M

Infosys investment to co-develop and implement **Zelle capability**

Fusion
Partner Management, Infrastructure, Application Support

Be the Lead Partner for Amex to coordinate and manage 100+ 3rd party partners as part of Amex India UCIO office. Own the India Application and Infrastructure support for retained assets.

We will establish an ***AI-first operating model*** for India Partner, Infrastructure and Application management.

Small Market Localization
Using Fusion's Blueprint

Own & deliver localization journey across other smaller markets like Taiwan, Brazil et al., by putting together an ecosystem of right partners and leveraging the experience and blueprint of Fusion.

We will ***link our fees to completion of launch and critical ROI milestones*** post-launch.

R42
Migration using Gen AI

Leverage Gen AI to accelerate migration to R42 of International Loyalty products by markets. We can reverse-engineer the current international benefits processes and help migrate them in a factory model.

We will ***link our fees to migration outcomes*** similar to US market.

AMP
Gen AI

Leverage LLMs through GitHub CoPilot agent mode and Infosys IMMP tool to document the calculation logic and data lineage for 800 Primary Fraud variables in 3 months. ***(POC is complete)***

We commit to ***deliver this at no charge to Amex*** as part of this consolidation proposal.

Financial Crimes
GenAI

Uplift FIU business operations and GSIP architecture with the power of Agentic AI as part of Financial Crimes and ***Guardian Program***.

We propose to leverage AI innovation fund to evaluate and execute a pilot.

MARS
Gen AI

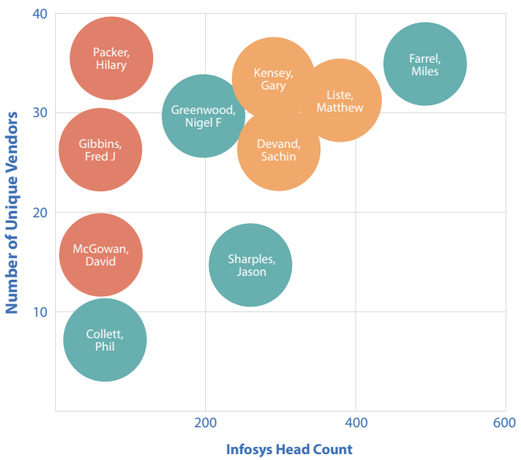

Investment in automation solutions including Gen AI experiments, Infosys Tools, Tech COEs and FS Industry Research. This helps accelerate MARS Reverse Engineering, drive efficiency best practices, Hyperscalar strategy, Synapse platform for KM and many more.

Innovation Investment of 5M USD (projected 5 yrs).

Fewer vendors, greater agility, lower risk and higher value

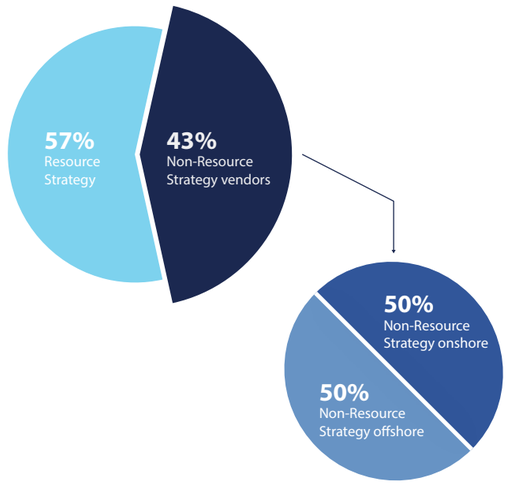

43% of vendor resource base is with Non-Resource Strategy vendors; consolidating them will unlock **$20M in savings** and drive outcome-based impact.

Areas of strong Infosys SME and high fragmentation are ripe for consolidation

Depth of Infosys Experience High | Medium | Low

Non-Resource Strategy vendor consolidation will unlock value

Infosys operates on a 70:30 offshore–onshore model

Resource Strategy vendors: *Infosys, TCS, Cognizant, IBM, Atos-Syntel, Wipro*
Non-Resource Strategy vendors: *Anyone not in Resource Strategy*

Champion and Challenger model: A source of untapped value

A structured **Champion** | **Challenger** model created to consolidate 1165 positions across AET to **unlock $20M in savings** while reducing vendor sprawl, strengthening execution, and scaling transformation across platforms.
