UNLEASH THE ENERGY

A forest experiencing tremendous growth will eventually grow thick and even tangled and the plants that once thrived will be challenged to survive. When nature sends that bolt of lightning to ignite the change, the ecosystem springs forth. The catalyst provides the necessary energy to set the stage for renewed growth.

At Telstra, you have ignited the fires of change to boldly become a leading TechCo with the best engineering shop powered by strategic partners. We are excited for this opportunity to **be the catalyst and bring energy** to help grow a better future with you. Our company success is built on a culture of pushing boundaries and embracing the uncomfortable.

As your strategic partner we will **unleash the energy** by:

Cultural change

Embracing the shift to ownership of outcomes and bringing out our respective core strengths

Engineering change

Being your outside-in change catalyst and co-creating a new operating model, with engineering & operational excellence and perpetual innovation

Commercial change

Accountability for cost certainty and accelerated interventions to deliver on structural cost reductions

Partnership change

Enabling Telstra's strategic T25 objectives and going beyond to help build your workforce

Telstra

Tulasi Cherukuri
AVP, Telstra Client Partner

01 CULTURAL CHANGE

Embracing the shift to ownership of outcomes and bringing out our respective core strengths

HOW

We will take on accountability and foster curiosity and collaboration in alignment with a shared purpose. We will tap into our full global capabilities to deliver on business outcomes, whilst at the same continuing to build the trust and goodwill between our respective teams.

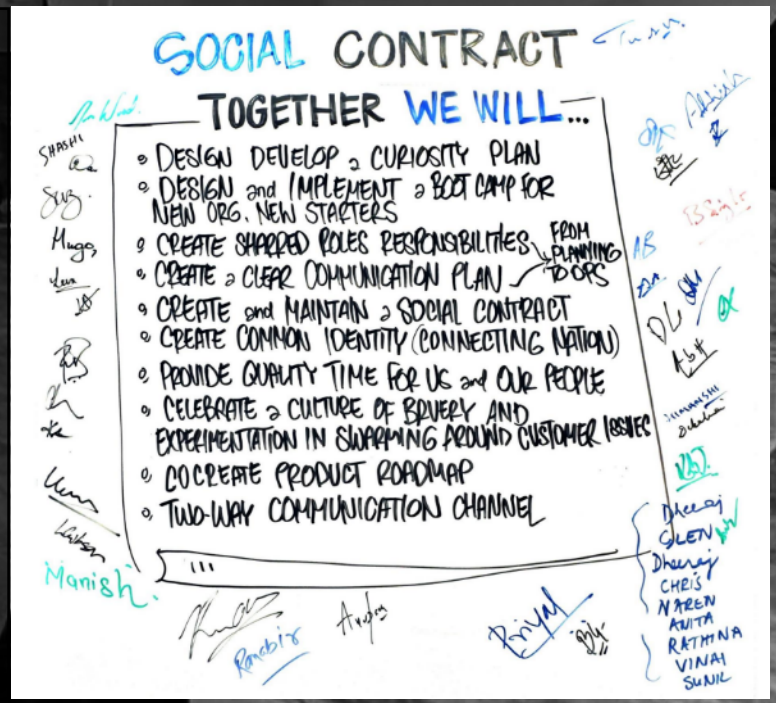

This in turn will **reduce** the **delivery risk** for Telstra and support you in **becoming a TechCo for growth.**

To ensure that this new paradigm is fully realised, we recognise the need to undergo a cultural reset together. This change will be supported by a talent strategy that brings a balance of outside-in thinking to the team whilst retaining Telstra experience for continuity and assurance.

We will get the buy-in from everybody in Telstra via a grass roots change program that makes it clear on what the change is and why we are doing it.

01 CULTURAL CHANGE

The change journey has already begun with our joint culture day

CASE STUDY 1

Delivering business outcomes “as a service” for a leading European broadband and communications co.

CONTEXT

The client needed to increase business agility in M&A, reduce their cost base, and industrialise operations.

OUR SOLUTION

- Simplify the landscape to 16 business services spanning people, processes, software hardware and networks
- Be the sole accountable ‘Managing Agent’ for E2E delivery
- Rebadge 230 client employees
- Implement a single dashboard for E2E visibility of business metrics
- “as a business service” commercials that moved fixed costs into variable catalogue-based services

OUTCOMES

99.8%
availability of business services

>25%
optimisation in delivery pipeline

103+
vendors governed seamlessly

Telstra

Rafee Tarafdar
EVP & Chief Technology Officer

02 ENGINEERING CHANGE

Being your outside-in catalyst for software and technology with a **new operating model**, engineering and operational excellence, and perpetual innovation

HOW

Together we will evolve our offerings so that the services and technology perpetually remain best practice.
Our Customer CTO and the supporting teams will facilitate:

A Studio accountable to drive strategy and effectiveness, and a Factory to industrialise the efficiencies

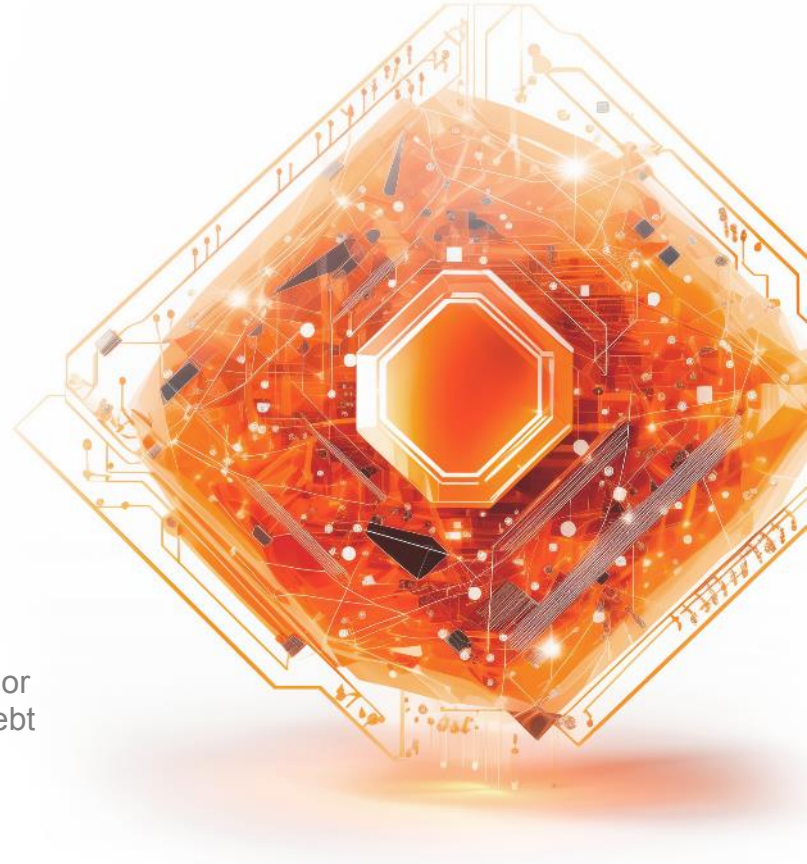

A lean governance process at the right levels to unlock creativity, challenge the status quo and create impetus for new solutions

Leveraging emerging capabilities from all key partners, CoEs/IP, and Labs in Telstra to prove the art of the possible

100%	API-first architecture	**50%**	Reduction in time to market	↓	Cost of Release	↓	Technical debt

02 ENGINEERING CHANGE

Being your outside-in change catalyst and co-creating a new operating model, with **engineering & operational excellence** and perpetual innovation

HOW

- Preserve the architectural intent across the system of work
- Simplify the environment and make the value stream leaner
- Deploy reliable, robust and fault tolerant systems
- Plan for and embrace AI disruptors
- Maintain operational rigor and reduce technical debt

WORK PACKAGE HIGHLIGHTS

Customer, Sales & Commerce

50+ legacy

applications retired from CRM ecosystems

Fulfillment, Procurement & Supply Chain

Simplification

B2B2X Monetisation

Assurance & Field Workforce

$7m license

savings from 10 ServiceNow instances consolidated to 2

Billing, Charging, Rating, Payments

ITaaS

ARIA and CSGI to Open Source

Corporate, Finance & Employee Systems

Cloud migration

from on premise to Oracle cloud

02 ENGINEERING CHANGE

Being your outside-in change catalyst and co-creating a new operating model, with engineering & operational excellence and **perpetual innovation**

HOW

We will bring together key stakeholders across Telstra's business to evolve our offerings so that the services and technology perpetually remain best practice.

"I'm deeply looking at how AI will change the industry. It's a structural paradigm shift"

Nandan Nilekani
Founder and Chairman

Sharing our blueprint for AI acceleration

We are going through a similar journey to Telstra as it transforms into an AI-first organisation. We understand that this change is critical to our future and that it will not be linear, nor easy. Therefore, our Chairman of the Board is personally driving the change. We invite Telstra to benefit from our learnings by taking advantage of our AI Blueprint, a playbook that is guiding this transformation.

Telstra

CASE STUDY 2

Transforming engineering for one of the world's top three technology companies

CONTEXT

The client was shifting from selling individual products such as collaboration software, to end to end solutions that cater to the office, home and on the go needs of their customers. They needed to create integrated offerings across their own products, third party tools and critical services. As the sole or leading partner for their critical digital programs (Modern Commerce, Marketing & Sales Transformation, and Operations), we were engaged to:

- Build solutions to cater to software and service solution bundles
- Reduce the complexity of agreements for partners and customers
- Enable rapid customer onboarding for partners
- Enable faster launching of programs and offers

SOLUTION, CULTURAL CHANGE AND UPLIFTING SOFTWARE ENGINEERING BY IMPLEMENTING:

- Services-based ways of working, moving SLAs from applications to APIs
- Hyper personalisation with AI/ML
- AI practices such as RCA and pattern analysis
- Standardised toolsets
- A common dashboard for all teams
- Extreme automation practices
- Cloud consumption tracking at a team level to enhance traceability
- Customised reporting (C suite to the developer level)
- Knowledge management tracking for all functional and technical requirements to address gaps

OUTCOMES

~95%
improvement in Time to Market for cloud product launches

~99%
Cost Reduction in cost of launching a cloud SKU

$30B
Generated cloud first party revenue in FY22

42%
Growth Supported in QoQ cloud revenue

~20-30%
Productivity improvements

Telstra

Raja Shah
SVP & APAC CMT Leader

03 COMMERCIAL CHANGE

Accountability for cost certainty and accelerated interventions to deliver on structural cost reductions

HOW

Outcome based engagement for all services

A capital investment pool

An additional innovation fund to drive down structural costs

Invest in the Customer CTO and the Transformation Office

An upfront payment to meet Telstra's FY24 objective

Cost removal

Capital investment pool

Upfront payment

Innovation Fund

04 PARTNERSHIP CHANGE

Enabling Telstra's strategic T25 objectives and going beyond to help build your workforce

Balakrishna DR "Bali"
EVP, Global AI Leader
CMT Delivery Leader

Both of us have a long heritage of nation building. Your purpose is to build a connected future so everyone can thrive. Our purpose is to amplify human potential and create the next opportunity for people, businesses and communities.

We commit to going beyond traditional relationships to strategically engage across:

People | **Planet** | **Prosperity**

04 PARTNERSHIP CHANGE

Powered by people

Supporting you in becoming the best engineering shop and helping you with your insourcing objectives

HOW

Jump Start
Improving the effectiveness of your nearer term objectives by enabling 5% of existing employees already working on your systems to join Telstra. This will help you to have a scaled-up team who already understands your systems and processes.

Recruitment as a Service
Helping you further scale your India operations by offering you the at scale recruitment process and our established reach in India to find talented individuals for you.

Unleashing the power of AI
Bring in an AI based co-pilot approach to training and product development to address the challenge of enabling new recruits on your systems and processes, and to speed up their time to productivity.

04 PARTNERSHIP CHANGE

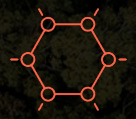

Partnering For Planet & Prosperity

HOW

PLANET

Invest 1% of gainshare value created for **social responsibility** initiatives such as helping indigenous communities

Increase Digital Equity for Australians by harnessing Telstra's deep connectivity and DNA of learning

Make Green IT one of the guiding principles of our software design

PROSPERITY

Together we will:

Utilise our vertical **industry experience and innovation capability** to co **create solutions** on the Telstra Enterprise Growth platform that solve industry problems

Make Telstra a **trusted partner to jointly go to market** for all the Client Network Transformation deals in APAC

Tulasi Cherukuri
AVP Telstra Client Partner

In summary, we are excited for this opportunity to be the catalyst and bring energy to help grow a better future with you.

As your strategic partner we will unleash the energy to deliver:

Cultural change

Embracing the shift to ownership of outcomes and bringing out our respective core strengths

Engineering change

Being your outside-in change catalyst and co-creating a new operating model, with engineering & operational excellence and perpetual innovation

Commercial change

Accountability for cost certainty and accelerated interventions to deliver on structural cost reductions

Partnership change

Enabling Telstra's strategic T25 objectives and going beyond to help build your workforce

and thereby making our partnership aspirations a reality

- Champion partner with your top mind and wallet share
- Key partner in your growth ecosystem
- Leverage our mutual enterprise capabilities
- A place our teams will want to work and grow
- Create an impact on the industry
